A virtual meeting was held on December 15, 2020 led by Mr. Andrew Macalma, Committee Chairperson, to address the committee's decisions about the admission of students to the University in the upcoming registration.

Based on the meeting, the committee agreed on the pertinent points regarding admission and enrollment guidelines. The agenda covered the following: **the Second Semester Processing of Transfer Applicants** subject to (1) admission policies and availability slots, (2) entry of irregular students, (3) subject loading, and (4) off-season subjects being offered. Furthermore, Mrs. Triceayn Marie Prestousa, Office of the Student Affairs Dean, presented updates on the guidelines concerning the inclusions for Transfer Applicants, that adds a requirement such as having course evaluation from previous schools, modifying GWA of SNS transferee, and starting applications.
