The Saint Louis University Extension Institute for Small Scale Industries Foundation Inc. (SLU-EISSIF) partners with community stakeholders and government agencies in providing beekeepers training on good agricultural practices in honey processing, packaging, and labeling. The content of their training modules provides beekeepers with inputs on the food safety law of the Philippines, good manufacturing practices, good hygienic practices, and sanitation standard operating procedures in honey production and processing. Lectures on various technologies on honey and honey by-products processing, packaging, and labeling are also provided to them.

Institute for Inclusive Education now the Inclusive Education Resource Center (IERC)

Braille reading & writingb. Independent and safe travelc. Adaptive Technologies• Coaching, Mentoring, and Tutorial sessions for students with visual and hearing disability.• Provision of learning aids and transcription of print texts to accessible formats (Braille, audio, or electronic copies)	<ul style="list-style-type: none">• Workshops on Strategies for Inclusion• Disability Awareness and Sensitivity Workshop

The Institute for Inclusive Education now the Inclusive Education Resource Center (IERC) of Saint Louis University assists students with visual impairment in the development of their curriculum plus skills through the conduct of orientation and mobility and computer literacy training. Students from the nearby regions avail of this training. Depending upon their locations, some avail of the training through virtual means, and others attend face-to-face. Recipients of this program are students from the Cordillera Administrative Region (CAR), Region 1, 2 and 3.
