School of Advanced Studies

VISION & MISSION

- The School of Advanced Studies (SAS) is envisioned as a Graduate School that stands for excellence and innovation and that will be globally identified for the distinction of its programs and the quality of its research.

SAS HISTORY

The biggest institution of higher learning in Northern Philippines was a one-building college, its campus hewn out of the hillside of the Baguio Cathedral when Saint Louis University had its collegiate beginnings in 1952. In 1956, the master's program in Education of the then Saint Louis College was granted government recognition. During the early school years, the Graduate School of Arts and Sciences was administered by the following Deans: Rev. Fr. Joseph Herpels (1955-1957), Dr. Sofia Elizalde (1957-1958), Rev. Fr. Francis Gevers (1958-1959), and Rev. Fr. Alberto van Overbeke (1959-1961).

After Saint Louis University was inaugurated in 1963, the Graduate Programs expanded gradually to include master's degrees in Management Engineering (1956), English (1957), Business Management (1966), Economics (1972), Teaching (1972), Psychology (1981), Biology (1981), College of Teaching and Public Management (1993), as well as doctoral programs in Education (1969) and English (1979). In 1995, the university opened its master's programs in Nursing and Information Technology. Starting 1996-1997, the various Graduate Programs were integrated into the other colleges of the university to which the undergraduate equivalents of these programs belong, thus ensuring smooth and solid disciplinary continuity.

However, in 2018, with the growing number of Graduate Programs being offered, the School of Advanced Studies (SAS) was established, housing all the university's Graduate Programs that are geared towards advanced, interdisciplinary scholarly research and academic work. With the Dean as its overall administrator, the school is composed of seven (7) clusters namely, Accountancy, Business and Management (ABM), Computing and Information Technology (CIT), Engineering (ENGG), Liberal Arts (LIBARTS), Natural Sciences (NATSCI), Nursing (NRSNG), and Teacher Education (TEACHED). To ensure efficient supervision and management of programs in each cluster, Graduate Program Coordinators (GPCs) with aligned qualifications are designated. Such a structure has existed since 1990 when Program Coordinators were appointed to assist in the smooth implementation of programs and activities at the graduate level.

To date (AY 2022-2023), there are 32 programs in the School of Advanced Studies.

School of Advanced Studies

GOALS AND OBJECTIVES

1. To enhance intellect and creativity through excellence in instruction, research, and extension work
2. To promote the highest ethical standards among scholars/professionals in various disciplines as they engage in instruction, research and extension
3. To hone the professional and social skills, and critical capabilities of students enabling them to become responsible leaders in their careers and community
4. To provide the students opportunities to serve the larger community through extension work and community service
5. To produce quality research in the various fields of knowledge that is internationally recognized
6. To assign faculty who are acknowledged experts in the field and to complement the teaching staff by inviting international scholars in the various disciplines
7. To build partnerships and linkages between the Graduate School and academic institutions, industry and government entities at the local, national and international level
8. To elevate the image and visibility of the Graduate School and its work in both the local and global community

PROGRAM OFFERINGS

BUSINESS AND MANAGEMENT CLUSTER:

- Doctor of Philosophy in Management
- Master of Business Administration
- Master of Science in Business Administration

COMPUTING AND INFORMATION TECHNOLOGY CLUSTER:

- Master in Information Technology

ENGINEERING CLUSTER:

- Master in Engineering
- Master in Manufacturing Engineering and Management
- Master of Arts in Environmental and Habitat Planning
- Master of Science in Environmental Engineering
- Master of Science in Management Engineering

School of Advanced Studies

LIBERAL ARTS CLUSTER:

- Doctor of Philosophy in Philosophy
- Doctor of Philosophy in Psychology
- Master of Arts in Philosophy
- Master of Arts in Religious Studies
- Master of Science in Guidance and Counseling
- Master of Science in Psychology

NATURAL SCIENCES CLUSTER:

- Doctor of Philosophy in Biology
- Doctor of Philosophy in Pharmacy
- Master in Public Health
- Master of Science in Public Health
- Master of Science in Biology
- Master of Science in Medical Technology
- Master of Science in Pharmacy
- Master of Science in Public Health

NURSING CLUSTER:

- Doctor of Philosophy in Nursing
- Master of Science in Nursing

TEACHER EDUCATION CLUSTER:

- Doctor of Philosophy in Educational Management
- Doctor of Philosophy in Language Education
- Master of Arts in Catholic Educational Leadership and Management
- Master of Arts in Education with areas of specialization:
 - Early Childhood Education
 - Inclusive Education
 - Language Education
 - Social Studies
- Master of Arts in Educational Management
- Master of Arts in Special Education
- Master of Arts in Physical Education and Sports

PROGRAMS TO BE OFFERED SOON

- Master in Disaster Risk Reduction and Management
- Master in Financial Technology

School of Advanced Studies

INFORMATION FOR APPLICANTS

SAS FACULTY & STAFF

- Faridah Kristi C. Wetherick, PhD
(Dean)
- Leah A. Riego
(Secretary)
- Francis Eric B. Subang
(Clerk)

CONTACT US

- +(63) (74) 442 2793
- +(63) (74) 443 2001
- +(63) (74) 442 2193
- Local Nos.: 236; 267; 241

LOCATE US

- A. Bonifacio St., 2600 Baguio City
Philippines, SLU Main Campus, Room
S314, 3/F Diego Silang Building.
