"Imagine a world that deserves our best, where we get up each day knowing that we can make a difference." - Rotary International President Jennifer Jones

One with District 3790, the Rotaract Club of Baguio SLU - School of Medicine celebrated the 1st of July with the theme: Alay sa Kabataan.

In partnership with the Rotary Club of Baguio, headed by President Ali Morales, the club conducted a tree planting activity at Brgy. M. Roxas Park.

As we also celebrate the Month of Nutrition, a hygiene and sanitation awareness talk was delivered; toothbrushes, educational books, multivitamins, and goodies were distributed; snacks of Malunggay Pandesal & soup were given to 3 to 6-year-old children.

Together indeed,
we make a difference!

Mabuhay Rotaractors!

Do you know that Bokashi balls is also known as MABUHAY BALLS? 🌱 Yes! We gave life to a body of water, specifically in Burnham Lake located in Baguio City 🌳 by throwing 600 Bokashi balls last November 19, 2022.

According to Leonardo da Vinci, "Water is the driving force of all nature". Therefore, we must continue to take care of it by supporting Project Adbokashi. We will back by January and June to check out the improvement of the lake.

Project Adbokashi was a complete success with the help of our Sponsoring Club, Rotary Club of Baguio Pines City and in partnership with the Rotaract Club of Baguio SLU-SOM and of course our Dynamic Rotaractors from Rotaract Club of Saint Louis University. 💚💙

Special thanks to the City Environment and Parks Management Office (CEPMO) for allowing and helping us to conduct this project! 💜💚

IN POST|| As part of its ongoing efforts to promote environmental consciousness among its employees and stakeholders and in celebration of National Clean-Up Month, [John Hay Management Corporation \(#JHMC\)](#), along with NorthCom and SEED4COM, conducted a clean-up activity that covered the Loakan roadside from Panagbenga Park to VOA, [Camp John Hay](#), earlier today, September 23, 2023.

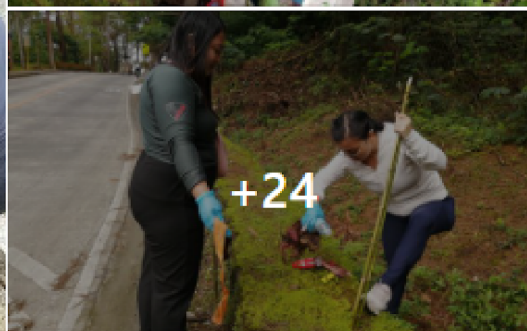

60 volunteers from the participating organizations, including UB and SLU interns assigned at the JHMC offices, took part in the activity, resulting in the collection of 380.5 kg of different waste, such as plastic and breakable bottles, cups, wrappers, facemasks, cans, styros, and other waste.

JHMC, through this activity, seeks to promote proper waste disposal and create public awareness about a zero-waste lifestyle to reduce our environmental footprint.
