Saint Louis University

12.3.1 Waste Tracking

12 RESPONSIBLE
CONSUMPTION
AND PRODUCTION

12.3.1 Waste Tracking

The Department of Environment and Natural Resources provides the university with standardized forms to monitor waste disposal, facilitating accurate measurement of waste generation and recycling performance. Quarterly reporting is routinely conducted to ensure consistent oversight of the waste management process and to promote continuous improvement. This systematic and proactive approach reflects the university's strong commitment to environmental responsibility.

The TRANSPORTER / TREATER, accredited and qualified by the DENR-EMB as an industrial hazardous waste transporter under Transporter Registration Certificate No. OL-TP-RI-55-000026, is also a registered Treatment, Storage, and Disposal (TSD) Facility for hazardous wastes with TSD Registration Certificate No. OL-TP-R1-55-000028. The company offered its services to handle the transport of industrial wastes generated by the GENERATOR.

Department of Environment and Natural Resources Environmental Management Bureau
