SLU Provides Childcare Facility for Staff and Faculty

For the past years, Saint Louis University has provided quality childcare and early learning services through SPDC to support the needs of its working parents, including faculty, staff, and student-parents.

By offering a safe and nurturing environment for young children, SLU enables parents, particularly mothers, to pursue their careers and studies with confidence. SPDC contributes to SLU's commitment to gender equality by providing accessible childcare facilities that help working staff and faculty balance family responsibilities with their professional and academic goals.

SLU ensures that children learn and play in a safe, conducive, and well-ventilated environment. SPDC's learning areas are designed to meet the developmental needs of young children and to promote exploration, creativity, and growth.
